EDITORIAL

Drug Analytical Research launches its second issue of 2023 with manuscripts from different sources, which expresses the scope of our capacity for inclusion in different scientific publishing platforms. The mission of diffusion scientific innovation and, at the same time, responding to editorial qualification metrics constitutes a permanent challenge for the editorial team. In this context, it is important to recognize the commitment of the members of the editorial team, who since 2017 have spared no effort in maintaining the ideal of expanding the journal. Renewal processes are always necessary and promote the revitalization of ideas and concepts in different areas of activity. Therefore, we inform the ingress of new researchers as associate editors and the change in the editorial leadership of the journal which, from 2024, will be coordinated by Prof. Dr. Cassia Virginia Garcia.

We wish you all an excellent reading.
