v. 10, n. 1, Jan./June, 2026

EDITORIAL

Drug Analytical Research is now publishing its **10th volume**. It is time to celebrate and reflect on the journey that has been crossed until this moment. Many efforts have been done to increase visibility and reach authors and readers around the world. In the last months, metadata from 2017 to 2025 were revised and updated at Crossref database and the own journal's profile at Instagram ([@druganalyticalresearch](https://www.instagram.com/druganalyticalresearch)) was created. Some challenges still have to be overcome.

In this issue, readers will find two reviews and four original articles covering different analytical techniques applied to APIs, impurities and formulations.

We wish you all an excellent reading!
